Statement of Work

This Statement of Work is between Trinity College Dublin and Most Marvellous Company Ltd ("MMC")

Deliverables and schedule

Item 1.

a.) MMC shall report directly to both Garret O'Donnell, Associate Professor, Mechanical & Manuf. Eng, Trinity College Dublin & Sarah Brady, Commericalisation Manager, Trinity College Dublin.

b.) MMC is providing its own labour, computing and design engineering support to Trinity College Dublin.

Item 2.

a.) Select a Framework for the Smart Reconfigurable Test project in Trinity. The framework shall have the capacity to accommodate a modular function test system and thus be the foundation of the SR Test Software Suite. The framework shall include error logging, reporting and a welcome banner display with logo and graphic of choice.
b.) The framework shall be presented to the team. The subsequent experience shall be noted by the trinity, those notes sent to MMC and the system upgraded to better reflect subjective expectations.
c.) The source code shall be hosted on either bitbucket or github and access granted to trinity.
d.) A sample simple test such as an LED current measurement shall be implemented and the results shall be written to a database and simple test report will be optionally outputted. The simple test shall be written in a structured manner with text files used to load system, test & equipment settings, (this allows clients using executables to change settings in their tester without the necessity for a LabVIEW license).
e.) MMC shall issue documentation with the system and complete a handover process with the team within Trinity.

Compensation:

The following compensation arrangements will apply to this Statement of Work only:

Daily Rate: €480 Euro / Day

One day comprises a normal working day of 8 hours with a half hour paid break. If conducting less than 8 hours in a single day, there will be no paid break.
